THE DEPARTMENT COURSES

In the program, the students are required to take and successfully pass the courses worth 120 ECTS credits minimum for graduation.

The average GPA (Graduate Point Average) must be at least 2.00 out of 4.00

THE GRADUATES OF THE PHARMACY SERVICES PROGRAM

The students who successfully complete the requirements for graduation are awarded the diploma indicating the associate degree of Pharmacy Technician.

The graduates can find employment in private, public and government sectors. They can work especially in pharmacies of public or private, hospitals, medical and pharmaceutical industry. It is estimated that our country has a number of 24.000 pharmacies and medicine related companies (the pharmacies located in the hospitals owned by the government or private companies, the distribution companies for medicine and health, pharmaceutical factories) in which our graduates can find the opportunities for employment and play roles as supporting personnel.

It is proposed by some people that our country has a demand for Pharmacy Technicians, a total of 35.000, currently. If the need stands and is realized, our graduates can find jobs relatively easily in the sectors aforementioned.

THE OPPORTUNITY TO TAKE THE EXAM TO 4-YEAR COLLEGE: VERTICAL TRANSFER EXAM DGS

The selected graduates of our program can take an exam called DGS (Vertical Transfer Exam) to pursue a 4 year (Bachelor Degree) in some degree programs shown below. The students are encouraged to examine «ÖSYM Dikey Geçiş Yönetmeliği» (DGS) for details pertaining to this transfer. The 4 year degree programs that accept our graduates are:

INTERNSHIP

Our students are required to conduct a mandatory internship that should last at least 30 days at the end of their first years usually in summers in the institutions, companies or places related to Pharmacy Services.

Hence, the students will be able to put into the practice the education and knowledge they have acquired during their classes.

ACADEMIC PERSONNEL

Assist. Prof. Dr
Esra DİBEK
Department Head

Teaching Instructor
Damla GETBOĞA

Teaching Instructor
